

Sol Anzorena

Visual Artist

About

My name is Sol Anzorena and I'm an eco-friendly artist. I was born in Argentina, but I grew up in Spain, and now I live in Wakefield, MI. I have studied art from a young age, but more importantly, I have experience painting murals all around the world - at hostels, lodges, and private residences in Europe, South America, North America, and Asia. My art has been exhibited in Spain, Poland, Brazil, India, Nepal and the United States.

My work centers around Nature and the redemption of humanity's relationship with it. So that my art remains consistent with my values, I use exclusively eco-friendly materials. In the act of making beautiful art, I believe we must not contaminate the Earth which inspired that beauty.
